## 'Senate Approves Medical Aid Plan

### Adjournment Of Congress Step Nearer

Limited Program  
Sent To President  
By Vote Of 74 To 11

WASHINGTON (AP) — Congress completed action Monday on a politically charged old age medical care bill and edged closer to possible adjournment this week.

The Senate voted 74-11 for a limited program of federal-state grants to help the indigent and near-indigent and sent it to the White House where presidential approval is regarded as certain.

The measure is a far cry from the broad Social Security approach which the Democratic platform calls for and which was fought for in the Senate by John F. Kennedy, the Democratic presidential nominee. He was beaten by almost solid Republican opposition combined with Southern Democrats.

#### Inadequate, Kennedy Says

Kennedy regards the legislation — which falls short even of the Republican platform aims — as wholly inadequate and has made clear he'll stress the issue in his campaign and seek early broadening action next year if he becomes president.

This Senate action left two major obstacles to early adjournment — and release of the lawmakers for full-scale campaigning.

One is another political hot potato, a minimum wage bill. The other is supplemental foreign aid funds, less explosive politically, but controversial enough so it could brake the adjournment wheels for a time.

Senate-House conferees met in closed session again to see if they could break a deadlock over minimum wage legislation.

Each chamber has passed a minimum wage bill. The Senate's would hike the \$1 hourly minimum to \$1.25 in two years and add coverage for about five million workers. The House would make it \$1.15 and cover only about a million more.

#### Foreign Aid Cut Restored

The Senate backed President Eisenhower Monday by voting to restore 190 million of the 265 million dollars Congress cut last week from the foreign aid money bill.

By a vote of 55-32 it included the 190 million for foreign aid in a \$305,042,731 catch-all appropriations measure. It then passed the bill 67-21.

Whether the 190 million for foreign aid will stay in the bill is a question.

The bill now goes back to the House which has shown less inclination than the Senate to go along with administration views on what is needed for foreign aid.

### Head-On Auto Crash Kills Six

BERLIN, N. J. (UPI) — Two automobiles collided head-on during the peak of evening traffic near here Monday night, killing six persons and critically injuring two others.

Police believe the crash was one of the worst in the state's history. Seven of the persons involved in the collision were members of two Cheltenham, Pa., families and were riding in the same car.

The dead were identified as: Cataldo Scartano, 61, Watersford, N. J., driver of one of the cars.

Mrs. Loraine Zimmerman, 31, Cheltenham, Pa., believed to be the driver of the second car. Her daughter, Sharon, and her son, Andrew, 8.

Mrs. Rita Sklaroff, Cheltenham, Pa., and her daughter, Ellen.

## Bombs Kill Jordan Premier, 10 Others

BOMB VICTIM—Time bombs exploding in government offices at Amman yesterday killed Premier Hazza Majali (above, of Jordan, and 10 other persons and wounded 41. Majali was 44.

### Foe Of Nasser Dies In Blasts; Mideast Tense

AMMAN, Jordan (AP) — Time bombs planted in the Jordan government offices killed Premier Hazza Majali and 10 other persons Monday. Forty-one were wounded.

Radio Amman said there were two bombs.

The first wrecked Majali's office and buried the 44-year-old premier under tons of debris.

The second was so powerful that it shattered windows in a large area around the two-story building, which also housed the foreign ministry and the government press office.

Listed among the dead besides the premier were: Zuhaidin Hammoud, undersecretary for foreign affairs; Assem Taijo, director of the tourism department; Sheikh Jamal Majli, chieftain of Kark village; an unidentified member of the Majali family and a Palestine refugee child.

Among those injured was a young girl.

The Majali government had generally steered a neutralist course in the East-West cold war but it had inherited intra-Arab feuds to contend with.

Mideast Tension Rises

Majali was regarded in Cairo as a leader of Arab forces opposed to President Nasser of the United Arab Republic. And the bombing consequently sent tremors through the volatile Mideast at a time when Jordan and the U.A.R. appeared to be settling long-standing differences.

King Hussein announced Majali's death over Amman radio. Then he called an emergency meeting of the Cabinet and announced the appointment of Bahjat el Talhouni, chief of the royal Cabinet, as the new premier.

Although it was not officially announced, Jordan was, in effect, put in a state of emergency.

An immediate curfew was clamped on the Amman area and armored cars with troops in battle dress patrolled the streets of the capital to forestall any coup against the state.

Airports were closed. Amman radio suspended its scheduled programs and carried on only readings from the Koran.

Majali took office May 6, 1959 and immediately proclaimed Jordan would keep clear of any foreign political or military pact except for the Arab League collective security treaty.

At Odds Over Exiles

Jordan and the U.A.R. long have been at odds over Nasser's Arab policies. Their latest dispute broke out at last week's Arab foreign ministers' meeting in Lebanon.

Jordan opposed the U.A.R. plan for a Palestine state-in-exile and creation of a Palestinian refugee army. Most of the exiles live in Jordan and in the U.A.R.-administered Gaza Strip.

Nasser's influence is strong among the Arab refugees, including those crowding the banks of the Jordan River in western Jordan. Jordan apparently feared Nasser's influence, which was held responsible in Jordan for the anti-Baghdad Pact riots in 1956.

The Arab foreign ministers finally reached a compromise to create a special committee for studying the question of creating

### Mexico Takes Issue With U.S. On OAS Action

SAN JOSE, Costa Rica (UPI) — Nineteen American nations signed a formal condemnation of Communist intervention in the Western Hemisphere Monday but Mexico took sharp issue with the United States' interpretation of the action as a rebuke to the Fidel Castro regime of Cuba.

Hemisphere statesmen took but 13 minutes to sign into being a formal seven-point "Declaration of San Jose" attacking communism, but a deep split in continental solidarity appeared developing over the issue.

U.S. Secretary of State Christian A. Herter described the declaration as "a clear indictment of the Castro government of Cuba and particularly the role it played in furthering Sino-Soviet efforts at intervention in this hemisphere."

However, Mexico's Foreign Minister Manuel Tello "clarified" his ratification of the document with a statement describing it as "a resolution of general character for all (OAS) member states which in no form constitutes a condemnation or threat against Cuba."

The declaration does not mention Cuba by name but point two "rejects the intent of the Sino-Soviet powers to use the political, economic and social situation of any American state . . . to imperil continental unity and put in jeopardy the peace and security of the hemisphere."

The San Jose conference, Herter said, "reaffirmed the faith of the governments and people of this hemisphere in the Organization of American States."

Only two of the 21 hemisphere nations were not present at the 39-minute closing ceremony of the conference. They were the Dominican Republic, which boycotted the meeting when officially termed an "aggressor nation" a week ago, and Cuba whose delegates walked out Sunday when the conference declaration was voted.

Typhoon Rips Japan;  
At Least Six Killed

TOKYO (UPI) — Typhoon Della ripped through the Japanese islands of Shikoku and western Honshu Monday, causing a landslide that buried nearly 70 workmen and killed several.

Early reports said four bodies were recovered from the slide wreckage, bringing to six the death toll in the wake of the typhoon which left a total of 51 persons reported either dead, missing or injured.

Forty of the workmen were rescued immediately. Between 22 and 27 were still reported missing.

A general typhoon alert was called throughout northern Honshu, where Della apparently was headed.

## Jacksonville Race Violence Flares Anew

White Student, 25,  
Aiding Integration  
Cause Is Slugged

JACKSONVILLE, Fla. (AP) — Racial violence flared again Monday in strife-torn Jacksonville when a white sympathizer of the Negro integration cause was knocked down in a jail bullpen.

Richard F. Parker, 25-year-old Florida State University student who has been aiding Negroes in lunch counter sit-in demonstrations, was taken to a hospital after being struck by Merrill Imus, 21, a Jacksonville construction worker. His jaw was broken.

Imus, who says he is part Cherokee Indian, told newsmen "I asked Parker if he was the leader of those Negroes and then hit him after he cursed and swung at me."

#### Uneasy Quiet Falls Over City

An uneasy quiet settled over Jacksonville after a weekend of disorders and vandalism that followed 10 days of sit-in demonstrations by Negroes at downtown lunch counters.

Mayor Haydon Burns, who placed emergency police powers into effect, said he has repeatedly refused requests of merchants that he order integration of the lunch counters.

"The merchants are trying to duck the decision by going to city officials and asking them to make the decision for them," Burns told the Jacksonville Ministerial Alliance which had invited him to a meeting on the issue.

Mayor's Explanation

The ministers asked Burns to explain why he has refused to appoint a bi-racial committee to help settle the three-day-old racial strife.

"The record of these committees in other cities is that they invariably result in decisions to integrate," the mayor replied.

Appointment of bi-racial committees in Florida communities was urged by Gov. Leroy Collins in a statewide television talk last March. His plea followed racial disorders in Tallahassee by Negroes also attempting to integrate lunch counters.

The pilot's wife made her statement to newsmen shortly after she had collapsed in a faint upon arriving here by plane from Paris.

She was carried inside the airport's health building by policemen.

When she recovered she told newsmen her husband "would give anything he had ever earned in his life or ever would earn to be permitted to return to me and to his mother and father."

Powers, 30, was sentenced to 10 years by a Soviet military court on espionage charges.

Mrs. Powers was sobbing when she started down the ramp from the plane. She started to fall once but caught herself and two guards gripped her arms. But she had gone less than 100 feet when she suddenly put her hand to her forehead and dropped to the pavement before police could catch her.

Officers rushed her inside the building where she quickly recovered and asked her bearers to let her down. She steadied herself against a wall to regain her composure than talked inside the public health section.

Fifteen minutes later she walked into the press room to speak to the assembled newsmen.

### Chrysler, Charging False Statements By Stockholder, Sues For \$30 Million

WILMINGTON, Del. (AP) — Chrysler Corp. sued one of its stockholders Monday for more than 30 million dollars, charging he made deliberate libelous and slanderous statements to injure the giant auto maker.

The lawsuit against Atty. Sol A. Dann of Detroit tended to serve as Chrysler's reply to three legal actions filed by Dann and two other stockholders that the auto firm was mismanaged and that some of its officers acted fraudulently.

Chrysler said Dann, who owns about 5,100 shares of stock, made "false, malicious and defamatory" statements about the firm's financial statements and conditions; about its credit and financing arrangements; and about the counting of proxy votes at the annual stockholders meeting last April. For each of these Chrysler

### Mrs. Powers Collapses

Mrs. Barbara Powers collapses in a faint on arrival at New York's Idlewild Airport last night from Paris. The wife of U2 pilot Francis Gary Powers, who was convicted of spying by a Moscow court and sentenced to 10 years, was carried inside the airport's health building by policemen and revived. Later she said she was not satisfied with U. S. government efforts on her husband's behalf.

## U2 Pilot's Wife Not Satisfied With U.S. Effort In His Behalf

NEW YORK (AP) — Trembling and in tears, Barbara Powers said Monday she was not satisfied with efforts of the U.S. government on behalf of her husband, convicted U2 spy pilot Francis Gary Powers.

Her eyes rimmed with red, the attractive brunette told reporters: "I've done all I can do."

She said she made a clemency plea to the President of the Soviet Union on her husband's behalf but had not received a reply or an indication one would be forthcoming.

Asked if she expected to make any further efforts to help her husband, she answered: "I have said many, many times, I am not a diplomat and I am not familiar with diplomatic channels." She added: "I think our government should be able to do something."

Then she said she was not completely satisfied with what had been done by the government for her husband so far.

"Acute Exhaustion"  
Hospitalizes Marilyn

HOLLYWOOD (AP) — Marilyn Monroe was hospitalized Monday with what her doctor called "acute exhaustion." He ordered complete rest and no visitors.

The glamour girl actress had been working for seven weeks in heat of 95 to 105 degrees on the desert near Reno, Nev., United Artists studio said.

Dr. Hyman Engelberg said Miss Monroe, 31, "needs rest and more rest."

Shooting of "The Misfits," a production costing 3½ million dollars, was suspended temporarily.

There are also various investigations—by a group of company directors, by unhappy stockholders, by the firm's biggest creditor, and by the Securities and Exchange Commission.

Twelve days ago, 17 of the 20 directors launched a full-scale probe of Chrysler's top brass. They hired the law firm of Thomas E. Dewey, former New York "racket buster" and once Republican presidential nominee, and put special accountants checking records back to 1950.

Chrysler Chairman L. L. Colbert said an investigation has been under way since last spring. It became public in June when William C. Newberg, president for only two months, was forced to resign over a conflict in interest. Newberg later agreed to return more than \$450,000 to Chrysler.

## Knee Injury Puts Nominee In Hospital

Faces Two-Week  
Stay, Disrupting  
Campaign Program

WASHINGTON (AP) — Infection in a knee injury received on a campaign trip, sent Vice President Richard M. Nixon to a hospital Monday. He is expected to remain there approximately two weeks.

The Republican presidential nominee's crowded vote-seeking program was disrupted by his lay-off. An aide said Nixon will be able to return to a day-to-day campaign schedule around Sept. 12 but all public dates between now and then are out.

In announcing that Nixon entered Walter Reed Hospital Monday afternoon, his press secretary, Herbert G. Klein, said the vice president has no fever and "continue's to be in excellent physical condition."

In response to a question, Klein said there is no malignancy in the infected injury.

Nixon injured his left knee on Aug. 17 at Greensboro, N.C., when he hit it against an automobile door. Since then he has been bothered by pain and he told reporters Monday that the flesh was cut and a lump had formed under the skin.

"Precautionary Measure"

Klein said it was decided to put Nixon in the hospital after tests Monday showed an infection described by doctors as hemolytic staphylococcus aureus—an organism that attacks red blood cells.

Hospital treatment will consist largely of administration of antibiotic drugs and keeping Nixon off his feet so the knee can heal.

"This is a precautionary measure to avoid any permanent damage to his knee," Klein told newsmen.

Sen. John F. Kennedy, the Democratic presidential nominee, promptly wired regrets. His message to Nixon said: "I hope your stay in the hospital will be of short duration and that you will make a speedy and effective recovery. I look forward to seeing you on the campaign trail."

Eisenhower Advised

White House press secretary James C. Hagerty said President Eisenhower was advised of Nixon's trouble in advance of the public announcement.

"The President regrets Mr. Nixon's ailment very much," Hagerty said.

At this stage there appeared little likelihood of Nixon being incapacitated to the point where he could not serve as the candidate. But if this should happen, the Republican National Committee would be called on to select a new nominee, with each state having the same number of votes as in the national convention.

Numerous speaking appearances were wiped out by Nixon's hospitalization.

While appearing on a TV program last Thursday, Nixon disclosed he had hurt his knee by striking it on a car door. On the same program when asked if he was in good shape, he replied "I am in fair shape."

## Ike Disagrees With Brother

WASHINGTON (AP) — President Eisenhower — lining up against his elder brother Edgar in a fight that split the legal profession — condemned Monday a clause allowing the United States to veto World Court action in certain disputes affecting this nation.

Speaking before the American Bar Assn., Eisenhower acknowledged smilingly that he was intervening in "your own family quarrel."

But he said somewhat ruefully that he had not yet "fully convinced every member of my own family."

This drew an appreciative roar from some 2,000 lawyers who were aware that brother Edgar, a 71-year-old Tacoma, Wash., attorney, is a member of a bar association faction which supports the U.S. veto power.

At issue is the 15-year-old Connally Reservation sponsored by former Sen. Tom Connally (D-Tex.) when the United States accepted limited World Court jurisdiction in some international disputes.

Cubans Turned Back

HAVANA (AP) — Eleven Cubans, including a woman, whose attempt to reach asylum in the United States failed when their launch ran out of fuel at sea, are under arrest after being picked up by a Cuban fishing vessel.

## Bunche Says Deep Misunderstanding Rampant In Congo

LEOPOLDVILLE, The Congo. (AP) — U.N. Undersecretary Ralph J. Bunche, fresh from a visit to eight U.S. airmen and two Canadians who "had the hell beat out of them," said Monday he believes he has never been in a place where misunderstanding is so deep as in the Congo.

Bunche is giving up his job as chief of the U.N. Congo operation after two turbulent months and flying back to his regular assignment in New York. His successor here is to be Rajeshwar Dayal of India.

"I leave with mixed emotions," the Negro executive told a news conference. "I am very happy to go back home and to my regular beat. But I am sorry to leave this team."

"In all my international experience I have never experienced anything so inspiring in the way of international cooperation."

"There has never been anything like it in history."

"Moreover, I regret to leave be-

## Mother Hubbard's Cottage Is Spared

PLYMPTON, England (AP) — Old Mother Hubbard's cottage won a reprieve Monday. Devonshire County Council ruled it must not be pulled down.

The village elders wanted to get rid of it as unfit for habitation. Now its stone walls and thatched roof will get a facelift in the hope of making it a tourist attraction.

Sarah Martin wrote the nursery rhyme about Old Mother Hubbard in 1804. Old Mother Hubbard was Mrs. Martin's housekeeper.

## Pennsy, Union Officials Meet

PHILADELPHIA (AP) — Top officials of the Pennsylvania Railroad and two unions met behind closed doors Monday in an attempt to avert a strike set for Thursday. But both sides expressed doubt about the success of the negotiations.

Among the representatives of the PRR were Board Chairman James Symes and President Allen J. Greenough, who attended at the insistence of Michael J. Quill, president of the Transport Workers Union.

They attended one session with Quill and representatives of the other union — the Systems Federation. Symes said the meeting had been "harmonious."

After a recess talks resumed but without the attendance of top Pennsy officials.

Quill, whose union claims to represent 20,000 non-operating PRR employees, said earlier, "There is no hope of settlement." The Systems Federation represents another 5,000 employees. The PRR has said it will furlough all but 2,000 of the remaining 50,000 workers from New York to St. Louis if the strike occurs.

The major issues in the dispute are the "farming out" of repair work to other companies and job classification, or spelling out in the contract the exact duties of each employee.

## Castro Taking Anti-U.S. Fight To U.N., People

HAVANA (AP) — Undaunted by a thundering defeat at San Jose, Prime Minister Fidel Castro prepared Monday to carry his fight against the United States to the United Nations and to the peoples of Latin America.

This pattern emerged as Foreign Minister Raul Roa made ready to return home after walking out of the Organization of American States conference in Costa Rica which condemned growing Soviet and Red Chinese influence in the Western Hemisphere.

No tears were shed by Cuban officialdom over the failure of Roa's delegation to win support for its charge that the United States is committing aggression against Cuba.

Versions of the San Jose meetings distributed here suggest that the conference was a major victory for Cuba.

That is the theme on which Castro and his followers are expected to base future actions in attempting to make the Castro revolution the pattern for all Latin America.

"It was Cuba who won in San Jose because Cuba raised there the rebellious voice of our fatherland," said the semi-official radio Rebelde. "False representatives of Latin-American countries sold out to the corrupting force of Yankee gold."

On the home front there were reports that the number of armed defectors in the hills of Las Villas province is growing steadily despite military cordons around the area. They are estimated now to total between 400 and 500 men.

The bands are not strong enough seriously to threaten the Castro regime, but they are drawing the attention of a substantial number of his troops and militia men.

## Farmer Kills Three Sons, Self

GUELPH, N.D. (UPI) — A one-armed farmer apparently shot his three sons Monday, burned their bodies in a haystack and then took his own life.

The children's dog also was shot and burned.

Dead were John Beck, 47, and his sons—John Jr., 13, Robert, 11 and Allen David, 8.

Coroner Dr. Ellis Oster and Sheriff George Morgan termed the deaths apparent triple murder and suicide.

The grisly incident occurred in a field about a mile from the Beck home where the farmer's wife waited for her family to return for lunch. It was Mrs. Beck, the sheriff said, who found the bodies.

Oster said the shooting apparently occurred before mid-day. The haystack was still burning when he arrived on the scene, Morgan said.

The coroner and the sheriff said Beck apparently killed the boys with three shots from a 12-gauge shotgun. Then he loaded the bodies onto a tractor, authorities theorized, and drove to a haystack in a nearby field where he covered the bodies with hay before igniting the funeral bier.

## Suit Challenging Va. Statute Dismissed

ARLINGTON, Va. (AP) — A suit challenging the constitutionality of a Virginia law requiring segregated seating at public assemblies was dismissed Monday by Circuit Judge Walter T. McCarthy.

He ruled the Arlington Community Council for Social Progress doesn't have the right to question the statute on behalf of its individual members.

The bi-racial council filed the suit after receiving permission from the county school board to conduct a meeting in the Washington-Lee High School auditorium.

The board later advised the council that rules formulated in accordance with state law would prohibit Negro and white members from sitting together at the meeting.

The council requested removal of the restriction. The board then voted to deny the council use of any facilities in the future. Filing of the suit followed.

## Scientist Believes Moon Has Necessities For Life

MEXICO CITY (AP) — Human beings probably could eke out a living on the moon and might even create a lunar atmosphere which they could breathe with the aid of a mask stocked with certain chemicals, a California astronomer said Monday.

The rocks on the moon's surface almost certainly contain all the chemical elements which could be made available for synthesizing food and drink and other essentials, said Prof. Fritz Zwicky of the Mt. Wilson and Palomar observatories. He addressed a meeting of the Mexican National Astronomical Observatory and the Academy of Scientific Investigation.

Principal requirements for setting up housekeeping on the moon, Zwicky said, would be a solar furnace, which focuses the sun's rays to produce great heat, and a crucible to hold batches of rock to be disintegrated by the furnace.

The first products of rock disintegration would be oxygen, nitrogen and carbon dioxide for breathing, and water, which is an important part of rock crystals.

From these chemicals and a few more such as carbon, sulfur, chlorine, sodium and potassium would come food, and even alcohol for a cocktail.

A few green plants, nourished by water and fertilizer from the rocks and plentiful sunshine to promote growth, would furnish material for salads and also some oxygen.

## Threat Of Laos Civil War Ends

LUANG PRABANG, Laos (AP) — A peace conference between two rival leaders apparently ended Monday the threat of civil war in Laos. Neutralist Prince Souvanna Phouma, choice of army rebels, was endorsed by King Savang Vatthana as premier.

The prince had met earlier with Gen. Phoumi Nosavan, ousted defense minister in the previous Western government. Phoumi had threatened to oust the army rebels by force from Vientiane, the administrative capital.

Phoumi declined to make a statement until Tuesday. But a communique issued by Souvanna and Phoumi after their meeting in this royal seat in the jungle said the two leaders had agreed on the need to bring peace back to Laos by constitutional means. The communique also asked the people to remain calm and have confidence in their leaders.

Souvanna flew here from Vientiane, site of the army coup d'etat 20 days ago that brought on the crisis. With him were 34 deputies of the 59-member National Assembly.

Phoumi flew in Sunday from Savannakhet, his stronghold in southern Laos, with 22 assemblymen who rallied to his banner and most of the cabinet ministers who served under ousted pro-Western Premier Tiao Somsanth.

## Ditch Cave-In Kills Worker

WHEATON, Md. (AP) — One man was killed and two others were injured Monday in a cave-in at an excavation where they were working.

The dead man was identified as Wilbur Stubbs of Baltimore.

Injured and taken to Suburban Hospital were Ellis R. Ambush, 45, of Dickerson, Md., and Rochester P. Johnston, 33, of Cherry Hill, Md.

Ambush's condition was described as not serious. Johnston's condition was not determined pending full examination.

Scene of the tragedy was a 12-foot deep storm sewer project on University Boulevard.

Stubbs was buried under a ton of dirt for about six minutes. He was pronounced dead at the scene. The other two were working about 20 feet from Stubbs when the wall caved in. They were released in about 20 minutes.

## Over 11,000 At Timonium For State Fair Opening

TIMONIUM, Md. (AP) — A snip of the scissors, the blare of trumpets and a parade along the midway signaled the start Monday of the 79th annual Maryland State Fair.

Although all the concessions, rides and exhibits were not in place, the fair opened on schedule under a hot sun. Baltimore County Administrator William E. Fornoff snipped the ribbon at the main gate, officially opening the grounds to the public.

Then the Pikesville Kiwanis Club, wearing trim blue uniforms, led county and fair officials across the grounds to another opening ceremony at the giant exhibition hall.

Fair officials, headed by John M. Heil, vice president and general manager, attended the ceremonies. Rep. Daniel B. Brewster (D-Md.), president of the State Fair, stayed in Washington because of congressional business.

Sunny, hot weather drew a sizable crowd during the afternoon. Fair officials estimated the opening day turnout at 11,254 compared with 12,655 on opening day last year.

Several thousand persons crowded the grandstand during the early afternoon as Timonium launched its regular two-week meeting on the half-mile track.

Racing actually began two weeks ago under the State Racing Commission's plan of shifting Cumberland's 12 days to Timonium.

Several new attractions were added this year to the usual demonstrations, exhibits, animal shows, judging contests, carnival rides and concessions. A model fallout shelter sponsored by the U. S. Office of Civil Defense and Mobilization was opened to the public. The shelter was built above ground to protect six persons against radioactivity from a nuclear attack.

The shelter measures about 16-by-14 feet and 9 feet high and was constructed mainly of concrete blocks with gravel packed between two layers of blocks.

The interior was stocked with various survival items which would sustain the occupants for about two weeks.

During the fair, the shelter will be manned by Civil Defense workers from the counties and Baltimore City and from the State Civil Defense Agency.

The first week of the fair will be devoted to 4-H Club activities, including livestock judging, pony shows, a tractor operators contest and home arts demonstrations.

## State Student Loan Fund Is Suggested

BALTIMORE (AP) — Del. J. Joseph Curran Jr. (D-Balto-Third) suggested Monday that a special state fund be created to provide loans for college expenses of worthy students.

Similar funds now operate in five states. Curran outlined his proposal in a letter to William B. Elliott, executive manager of the Maryland Bankers Assn.

The fund would be supported by either private business or the state to enable commercial banks to make unsecured loans to students, who would repay after graduation.

Connecticut, Rhode Island, New York, Virginia and Massachusetts have such programs, Curran said. An expanded state scholarship system plan failed to gain enactment in the 1960 Legislature.

Curran is a member of the House Education Committee.

## Deaf School Superintendent Is Appointed

Georgia Native Accepts Position

CHARLESTON, W. Va. (UPI)—The State Board of Education wasted no time Monday in selecting a new superintendent for the Romney Deaf & Blind Schools.

After interviewing about a half dozen applicants for the job held by Hugo F. Schunhoff, the board selected Jack W. Brady, currently principal of the American School for the Deaf, West Hartford, Conn.

Schunhoff resigned earlier this month to accept a similar post at a school for the deaf in Berkeley, Calif. His resignation, formally accepted by the board Monday, was made effective Sept. 30.

The 33-year-old Brady, a native of Waycross, Ga., joined the Connecticut school faculty after holding teaching positions in schools for the deaf in Pennsylvania and Georgia.

A 1959 graduate of the University of Pittsburgh, Brady took one year of special training to teach the deaf at the Western Pennsylvania School for the Deaf, Pittsburgh, 1952-53.

## Howard Co. Girl Is Farm Queen

TIMONIUM, Md. (AP)—A pretty, high school senior from Howard County, who said she wants to be a nurse, was named Maryland's 1960 Farm Queen Monday night at the state fair.

Sandy Mullenix, 17-year-old daughter of Mr. and Mrs. Roland H. Mullenix of Lisbon, was judged the winner among 23 girls representing every county in the state.

The runners-up were: Mary Elizabeth Klein of Street, Harford County; Gladys Myers of Thurmond, Frederick County; Catherine Ann Hall of East New Market, Dorchester County; and Kay Frances Roach of Flintstone, Allegany County.

The girls are not judged according to beauty alone. The decision also is based on poise, personality and achievement on the farm and in the community.

The attractive, brown-eyed brunette wore a pink party dress she had made herself. She said she has been in 4-H Club activities for four years and has entered three steers and four lambs in this year's 4-H competition at the state fair.

The 79th annual fair opened Monday with a snip of the scissors, the blare of trumpets and a parade along the midway.

## Forest Festival Invites Nominees

ELKINS, W. Va. (UPI)—Both the Democratic and Republican presidential nominees have been invited to attend the 1960 Mountain State Forest Festival here Oct. 5-8, it was announced Monday.

Festival director Phil K. Harness said an invitation was extended to Democratic Sen. John F. Kennedy by Sen. Jennings Randolph, an Elkins resident, and to Vice President Richard Nixon, by Gov. Cecil H. Underwood.

In 1956, Democratic presidential nominee Adlai Stevenson attended the festival.

## Harper's Ferry Appropriation Is Increased

WASHINGTON (UPI)—Slightly more than a quarter of a million dollars has been added to the Senate appropriations bill for expansion and improvement of the Harper's Ferry National Monument.

A House appropriations bill did not carry any funds for the acquisition of the now defunct Storer College adjacent to the monument grounds as provided in a bill passed earlier this year by both houses of Congress.

Sen. Robert C. Byrd (D-W. Va.), a member of the committee, succeeded in having the committee include \$255,000 the Senate version expected to be passed early this week.

Byrd also succeeded in getting the Senate committee to raise by \$10,000 the amount allocated to the Department of Commerce to determine how the federal government can participate in West Virginia's 1963 centennial celebration. The House had allocated only \$5,000 for the work.

A House-Senate conference committee will be asked by Byrd and Sen. Jennings Randolph (D-W. Va.) to retain the two amounts in a compromise bill.

## Farmers Will Hear Nominees

JACKSON'S MILL, W. Va. (UPI)—Sen. Jennings Randolph and his adversary for the U. S. Senate in the November elections, Gov. Cecil H. Underwood, are scheduled to appear Tuesday night before West Virginia farmers.

Randolph said that if Senate business keeps him from making it to the State Farm Bureau dinner, he will be represented by Clarksburg attorney Robert Maxwell.

Both Randolph and Underwood are scheduled to make brief addresses then submit to questions from the audience. The program is designed to emphasize the bureau's efforts to get farmers to take a more active part in politics.

The three-day, 41st annual convention opened Monday. American Farm Bureau field service director O. R. Long is to speak at the Tuesday dinner.

## Hafer To Open Winchester Store

John J. Hafer, president of Hafer House, Inc., announced last night the corporation will open a new furniture store tomorrow in Winchester, Va.

Mr. Hafer said the store also will be called Hafer House and Virginia Whittell, formerly of Olbourn and John Thomas and Sons, Johnstown, Pa., will be the decorator.

The new store is housed in a one-story building which has 9,000 square feet of space. It is located 116 North Braddock Street, which also is U.S. Route 11.

Mr. Hafer said the store will handle furniture, carpets, gifts and accessories and Mrs. Whittell will be available to decorate homes, stores, institutions and offices.

## Choir Rehearsal

# Judith Allen Selects Attendants For Wedding

Honored At Shower Party

Miss Judith Allen, fiancée of William Elwood O'Hara, Jr., has selected Mrs. Kay Clites to be her matron of honor for their wedding Thursday.

Miss Elvita Carder and Mrs. Anette Fuller will be the bridesmaids and Lisa Santmyre, flower girl. Ronald Delligatti is serving as Mr. O'Hara's best man, while Richard Santmyre and Carl Slemmer are the ushers.

The wedding ceremony will be solemnized at 8 p.m., in the Oldtown Methodist Church, with Rev. Charles Sisk, of the Oldtown Circuit, officiating. Mrs. Mary Spanier will be the vocalist, accompanied at the piano by Mrs. Janet McCayley, who also will play the traditional wedding marches.

A daughter of Rev. and Mrs. Irvin G. Allen, RD 1, Oldtown, the bride-elect is a graduate of Oldtown High School, class of 1958, and is employed as a bookkeeper and typist at the Super Shoe Store.

Her fiancé is the son of State Police Lieutenant and Mrs. William E. O'Hara, Oldtown. He is a graduate of Allegany High School, class of 1952 and attended Frostburg State Teachers College, and the University of Maryland. He served two years in the Army and was stationed in England for one and one half years. He is employed at the Allegany Ballistics Laboratory and will be a senior at Frostburg State Teachers College this fall.

Rev. and Mrs. Allen will entertain with a wedding reception in honor of their daughter and her bridal party in the church social room following the ceremony.

Mr. and Mrs. O'Hara will be hosts for a rehearsal party, tomorrow evening at their home, following the rehearsal.

Miss Margaret Lester entertained with a pre-nuptial party and miscellaneous shower at her home, Bedford Road, in compliance to Miss Allen. She carried out a pink and white color scheme in her floral decorations throughout the house and repeated them in the arrangement centering the refreshment table. Candelabra of white tapers were at either side. The shower gifts were arranged around a wedding bell with pink and white streamers.

Guests were Miss Doris Kalbaugh, Mrs. Clara Long, Mrs. Carolyn Griffin, Miss Margaret Davis, Mrs. Thelma Cook, Mrs. Evelyn Twigg, Mrs. Elaine Stanmyre, Miss Ruth Lester, Mrs. Anette Fuller, Mrs. Erma Martin, Mrs. William O'Hara, Mrs. Una Landis and Diane Lester.

PFC Allen M. Sell, Jr., 277th Engineers Construction, has returned to Fort Benning, Ga., after spending two weeks with his parents, Mr. and Mrs. Allen M. Sell, 523 Greene Street.

Mr. and Mrs. Louis H. Sell and children, Louis and Anne, Louisville, Ky., are visiting Mr. and Mrs. Allen M. Sell, 523 Greene Street.

Wiley Ford Firemen and Auxiliary have cancelled the usual supper for Saturday because of the Labor Day holiday. They will be resumed September 10.

## Pack 20 Has Hike, Campfire

Cub Scout Pack 20 had a hike and campfire Friday. Sponsored by the Mount Royal Parent-Teacher Association, the pack hiked through the C & O Canal tunnel near Paw Paw, with Glen Dicken in charge.

Carson Dowell, cub master, had the boys for competitive Indian wrestling. At dusk a campfire was built, and the attendance arrow was won by Den 7. Mr. Dicken gave a brief talk about the history of the canal. Group singing was led by Wilton Sykes.

Short stories were told by Mr. Dicken, Thomas VanOrmer and Christopher Moore. Others of the group told jokes.

Plans were discussed for the next pack meeting. It is to be held after school starts.

Others attending the outing were Mrs. Dowell, John Dowell, Mr. and Mrs. Walter Frederick, Jr., Charles Frederick, Mr. and Mrs. Edward Shuck, Edward Shuck, Jeris Shuck, Deborah Shuck, Vicki Shuck, Mrs. Robert Haines, Theodore Haines, Richard Haines, Mrs. Dicken, Michael Dicken, Mark Dicken, Mrs. Scott Fornwalt, Martin Fornwalt, Gary Fornwalt, Dr. W. Mr. and Mrs. Hubert Hansrote, William Sykes, Bradford Sykes, Mrs. Thomas Rudd, William Rudd, James Lough, Edward Lough, Gorman Getty, Gene Getty, Michael Getty, Stephen Brant and Edward McKay.

The monthly card party for the benefit of the St. Anthony Church, Ridgeley, will be held tonight in the church basement. Setback and 500 will be played. Prizes will be awarded and refreshments served.

## MORTGAGES OR COMMON STOCKS?

The answer is "both," if you wish. If you do not have enough money to invest in both, we suggest:

Place your savings in mortgages on homes in this Community through this Association.

FIRST. Establish a degree of financial independence through savings in this Association which are entirely invested in first mortgages on homes and which are repayable with a relative high rate of interest in fixed dollars, and not subject to market fluctuations.

SECOND. After achieving the first objective, you may think it prudent to make speculative investments with the hope of capital gains, stock splits, and higher market values, but also be prepared to assume the dangers of loss.

The Business and Professional Women's Club will have a special membership meeting tonight at 7:30 at Central YMCA.

Zion Women's Society of Christian Service will hold a festival on the lawn of the church, Bedford Road, Saturday, beginning at 4:30.

Secrets Of Charm by John Robert Powers

Your mannerisms count more than dress in winning men's approval!

Graceful Action Wins Most Male Accolades

Most men size up an over-all picture to get their clues to the charm of a woman's personality. In both business and social life, they are most impressed by a woman's general bearing and manner. To the male contingent, a gracious attitude indicates that she'll be easy to get along with. And graceful actions win her acknowledgement that she is easy to look at. That's a hard combination to beat!

You can see why a woman's mannerisms are important if she wishes to win male approval. If they are fidgety, fluttering, uncertain, listless, or too forceful, they will type her in unflattering terms—"Fliberty Flossie," "Sad Sam" or "Bumptious Betty."

Of course, no woman would deliberately set out to manufacture such character impressions for herself. Unfortunately, it's the little unconscious gestures and habits that get her so labeled. Nervous motions of the hands, vigorous swinging of the arms, a thumping stride, a slump, a shuffle—any of these can ruin the impression you'd so like to create of your true graciousness.

You can avoid such catastrophe by keeping a little check on your mannerisms at all times. Watch them; know what your hands are doing, what your feet are doing, what your eyes, nose and lips are doing as you talk or listen. You can make your mannerisms attractive if you want to. The mere elimination of unnecessary motions will help to a great degree.

My latest charm guide, "Thirty Days to Charm," gives you a beauty hint for every day of the month. Follow it closely! Watch your charm rating go up! To get your copy send 10c and a stamped, return envelope to "Secrets of Charm," c/o this newspaper. Please allow at least two weeks for delivery.

# CDA Will Open Season At Covered Dish Supper

Plans for events for the fall and winter were formulated at a meeting of the officers and members of the ways and means committee of Court Cardinal Gibbons, 529, Catholic Daughters of America, which was held at the home of Mrs. Joseph Soethe, grand regent, 630 Bedford Street, recently.

The court will open the season on September 12, with a covered dish supper. It will be held in St. Patrick's social center at 6:30. The business session will be conducted at 8:15.

The annual retreat is to be held at St. Patrick's Church October 1-2 Mrs. John Powers is general chairman.

Concluding the meeting refreshments were served.

Those present were Mrs. Rose Loible, Mrs. Charles Albright, Mrs. Mary Jane Natale, Mrs. George Connor, Miss Mary Doll, Mrs. Sylvester Shircliff, Mrs. William McCleary, Mrs. Samuel Margherita, Mrs. Catherine Melon, Mrs. John Schaeaf, Mrs. Charles Simpson, Mrs. Allen sell, Mrs. Charles Hine, Mrs. George Barnard, Mrs. Walter Miller, Miss Anna Ketzner, Mrs. Mortimer Nehring and Mrs. Shirley Norris.

## Auxiliary Has Outing

The Ladies Auxiliary of the Disabled Veterans held a regular meeting following the corn roast and hamburger fry, which was held Thursday evening at the summer home of Mr. and Mrs. John Alburtis, Smouse Beach.

Mrs. Patricia O'Bradon conducted the business session at which time routine business was discussed. The names of three prospective members were proposed.

Initiation will be held in conjunction with the next regular meeting which will be September 15, at the DAV home. Approximately 20 members and guests attended.

## Shorter Hairstyles Headlined For Fall

Fall 1960's big news is the "roaring twenties" influence; hemlines are inching up, waistlines easing down. Shorter hair is a natural with this look — short but not shorn. American women will not follow the vogue for the mannish shingle recently introduced in Paris. Instead, the effect will be small-headed and feminine with a curved, face-framing outline that hugs the head like a cap. This close-but-not-flat coil will replace the poufing beehives and soaring French twists of last spring and summer.

Quick acceptance of this shorter, smoother new style is predicted because it is youthful and flattering. Outlines are curved, rather than curly, rounded and ultra feminine. But there's no monotony here. Ends may sweep under in a short version of the page-boy, bounce up in feathered tips or flip forward in cheek brushing kiss curls.

Although rounded smoothness and wide curly waves may look "straighter," don't fool yourself that you can get by without a permanent. Your hair needs "body," and plenty of it, to shape and hold the styling.

A rummage sale will be held by Circle 1 of Centre Street Methodist Church from 7 until 9 p. m., today, in teeland.

Potomac Valley Bridge Club will play tonight at 8 at the Woman's Civic Club house.

## Three More City Streets To Be Paved

Three more street resurfacing ordinances will be introduced September 12 before the Mayor and Council.

Introductory ordinances giving notice to property owners were passed by council yesterday for City Hall Square; the Central YMCA intersection; and Williams Street from its intersection with Douglas Avenue to its intersection with Avondale Avenue.

In discussion on the City Hall Square proposal, it was brought out there is some question about the properties involved and City Auditor Arthur B. Gibson suggested if this question continues to exist, and there is no return on money spent, that the project be charged to streets and alleys appropriation rather than the bond fund.

Council approved payment of \$10,705 to Cumberland Contracting Company for paving of five of nine alleys under a Street Department program. Commissioner G. Ray Light registered a "no" vote.

Payment of \$2,819 to John S. Cook and Son for the concrete retaining wall and sidewalk on the east side of Valley Street also was authorized.

Three bids were received by council on a sewerage project which would include installation of an 18-inch storm sewer in portions of Second Street, Blackiston Avenue and Fourth Street. Distance involved is 984 lineal feet and bidding are Orrie Sensabaugh, Cumberland Contracting Company and Hout Construction Company. Bids were referred to Street Commissioner John J. Long.

Council granted a one-year leave-of-absence to Charles R. Scarlett as designer-draftsman in the Engineering Department. Scarlett has accepted a one-year contract with the city as assistant engineer with the understanding that if at the end of that period his contract is not renewed, he will resume his post as designer-draftsman without loss of seniority. If he is hired at the end of one year, the Civil Service Commission will be asked to conduct a designer-draftsman examination.

## City Discusses Weed Problem

The city expressed interest in clearing off weeds growing from sidewalks in the city and indicated it might inflict a penalty if they are not removed.

The matter was brought to council's attention by C. E. Roeder, 908 Frost Avenue, who said the weeds are "two feet high in some places" and added the unusual growth probably has been caused by a wet summer. He mentioned Centre Street, Independence Street and Maryland Avenue in particular.

City Attorney William R. Carscaden pointed out that removal of weeds is the responsibility of the property owner.

Street Commissioner John J. Long agreed that some steps should be taken to have weeds cleared away and Roeder added "it would be a good project for Labor Day."

Minarets are the name of the tall towers, or turrets, found in Byzantine or Mohammedan architecture.

## County Teacher Turnover Is Normal

The turnover in teaching positions in Allegany County public schools during the summer vacation was just about normal.

Ralph R. Webster, superintendent of schools, said there are 21 new junior and senior high instructors together with only 12 elementary teachers.

Not all of these instructors new to the county system are without experience, as many have come from other counties or other states.

The school year is not far off as registration of students new to the system and those who have not previously signed up is due Wednesday and Thursday.

Elementary registration will be held at the various schools on Wednesday from 9 a. m. to noon, while high schools will be open for that purpose from 9 a. m. to 4 p. m. on both days.

Next Friday at 9:30 a. m. elementary principals will confer at the Board of Education administration building.

On the same day at 1:30 p. m. high school principals will confer at the building.

On Tuesday, September 6, fac-

ulties will meet with their principals in their respective buildings. School will open on Wednesday, September 7, for a half day, with hours from 9 a. m. to noon.

Thursday, September 8, will be also a half day session, but Friday, September 9 will mark the first full session with dismissal at 3:30 p. m.

In his report to all principals and teachers, Webster has pointed out that the 1960 General Assembly changed the law governing fire drills in schools.

While Allegany County schools have been fulfilling the requirements of the new act for many years, principals will continue to hold fire drill on a monthly basis.

The new law requires ten fire drills a year, and the superintendent of schools pointed out that for many years principals have had to include the results of fire drills in their monthly reports.

Webster also noted that he is again recommending that the Board of Education approve the closing of schools early on five days during the year in order that teachers and principals may use this time for professional purposes.

These dates are September 26, November 14, January 23, March 13 and May 15.

Dismissal times on these days are 12:30 p. m. for high schools, and 12:50 p. m. for elementary schools.

## Man Is Given Suspended Term

Chief Judge Morgan C. Harris yesterday suspended a five-year sentence in prison on John R. Zimmerla, who had appealed from a sentence in Trial Magistrate Court on charges of assault.

Yesterday's hearings in Allegany County Circuit Court ended with Judge Harris finding Zimmerla guilty. The prison term was suspended on condition that the accused refrain from alcoholic beverages, stay away from the home of his father, Carl F. Zimmerla and also from the machine shop his father operates on North Mechanic Street. He will also have to report to the probation officer.

## Powers To Talk At Demo Rally

The Allegany County Democratic rally today at the home of Cumberland Aerie 425, F. O. Eagles, will feature one of the greatest athletes in Allegany High School's history.

He is Thomas Noyes Powers, who starred in football, basketball and baseball at Allegany. After graduating from AHS, he attended Duke University where he starred in football and baseball and compiled a six-touchdown spree against the University of Richmond in 1950 which still stands as a school record.

After receiving his degree from Duke he went to the Harvard University School of Law and currently is an attorney with the law firm of Steptoe and Johnson in Washington.

Powers resides in Montgomery County where he is active in Democratic politics.

Thomas B. Finan, secretary of state, said Powers volunteered to come here on behalf of the candidates of Kennedy and Johnson for president and vice president and also for Rep. John R. Foley. The one-time Allegany athletic great is also working in Kennedy-

Johnson headquarters in Baltimore in the registration drive for the Democratic party.

Besides his athletic ability, Powers made an excellent scholastic record while at AHS, Duke and Harvard.

The rally will consist of plans for registering voters, getting out the vote election day and fundraising for the campaign.

## Family Trees Stop

LONDON (UPI)—The Sunday Express said Sunday a Communist Poland genealogy just published of the country's kings discontinues the family trees after 1880. There is no mention of living descendants.

## City Water Use Up

Water consumption for the week ending Sunday was 107,850,000 gallons compared to 98,440,000 the same period a year ago. Acting Superintendent Ray Nixon reported to the Mayor and Council today. The water level in Lake Gordon is one foot two and a half inches below the crest of the spillway and three feet below in Lake Koon.

## Keeping Up With Hollywood by Louella Parsons

HOLLYWOOD—Martin Manulis had many adventures and now his is too nice a man to sit around hoping that both Henry Fonda and his daughter Jane will have flops on Broadway in their respective new plays. But if it just SHOULD happen that Hank's "Critic's Choice," and Jane's play close in a few months, Manulis is holding "Cher Papa" until December keeping his fingers crossed to get the Fondas!

It was a cinch some producer would come up with the right story for this attractive father-daughter team ever since Jane clicked in "Tall Story" with Tony Perkins. Martin thinks "Papa," his first independent feature for 20th, is it. Story is about an 18-year-old ski champion and her father and the locale is Sun Valley.

Still another one of his weekend flights over the pole from London to Hollywood for John Ireland—this time not entirely because his "heart" Daphne Cameron is here. During his three-day visit John closed the deal for financing of "The Trespasser," which he'll produce and star in, in Madrid after completing 13 more chapters of his British TV series, "The Cheaters."

As for his romance with Daphne (the about to be ex-wife of millionaire George Cameron), Mr. Ireland is unusually quiet, saying only that her divorce won't be final for 10 months—and that's a long time off to be thinking of marriage. In his case—I hope he'll excuse me for agreeing.

It's either Kirk Douglas or Charlton Heston for "The Walls of Jericho," the lusty new novel by Allen Calloway—but the bets are on Heston.

The book has been bought by Eugene Frenke, who is associated with Kirk in Bryna Productions—but Mr. Douglas has his work cut out for him doing a selling job on "Spartacus" and his Mexican picture "Day of the Gun."

Heston, who has read the book and likes it, seems the likely choice to play the American Army captain held captive on the island of Sulu by uncivilized Moro pirates who delight in torturing their prisoners in the most inhuman ways the censors will allow. Don Cerveris and Gene Thompson are already at work on the screen play.

Along with the casualty of so many TV shows some of us thought were popular. Mike Connor's "Tightrope" hit the dust. While it was a bit of a shock because he received so many fan letters, Mike didn't mourn for long. He went searching for a story and found it right in his own family history.

His real name is Krekor Ohannoun, Jr., the son of an Armenian lawyer who came to this country 40 years ago and started practicing law in Fresno, Calif. He

Opening lead: Ten of ♠

The bidding was not of the rocking chair variety in today's hand. North opened with one diamond. South temporized with a bid of one heart and North gave a full account of his assets when he jumped to three no trump, a bid which shows 21 points. South then overbid the game with a call of four diamonds to show his support in partner's first bid suit. North, fired with ambition, showed the ace of spades. On this display, South contracted for a slam in diamonds. North, having thus far made no mention of his strong heart holding, returned to the slam in the major suit. He felt bigger things might be in store if partner could control the club suit. Whereupon, South decided to play for all the tricks.

West opened the ten of clubs which was covered by the jack and queen as declarer ruffed. On the surface there appeared to be only 12 tricks—five hearts, six diamonds, and the ace of spades. However, declarer decided to mull

over the problem a little longer. Presently a light dawned. If he could ruff three clubs in the closed hand he could increase his total of trump tricks from five to six and in this manner bring home 13 tricks.

After ruffing the opening lead declarer led a spade to dummy's ace and ruffed another club. Then came the king of hearts and a heart to dummy's queen, and a third club was ruffed with South's remaining heart. Dummy was re-entered with a diamond and the ace of hearts drew the outstanding trump as South discarded a spade and ran all the diamonds.

## 300 To Attend W.Va. Youth Camp

WEBSTER SPRINGS, W. Va. (UPI)—Some 300 West Virginia high school seniors and college students are expected to be on hand at nearby Camp Caesar Monday for the opening of a week-long "youth citizenship training camp."

Sponsored by the Republican State Executive Committee, the program is designed to interest more young people in government work.

The program will be under the direction of Dr. Donald Hayhurst, West Virginia University political science instructor and special assistant to Gov. Cecil H. Underwood. The assistant director will be William P. A. Nicely, Parkersburg.

## Ann Landers . . . Answers Your Problems

DEAR ANN LANDERS: How can a wife tell for sure if her husband is cheating? My Warren has always been a good husband and father. He stays home at night or takes me with him. I know where every dime goes. But he's been acting strange lately and I wonder if it means anything. He's been using deodorant every morning.

He never used to do this and it's got me worried. Also, he seems to hesitate before selecting just the right tie. Please tell me if you think I'm worrying needlessly or do you suspect he has another woman in his life? — SUSPICIOUS

DEAR SUSPICIOUS: Just because your husband wants to be neat-n-tidy at his place of employment doesn't mean he's sprucing up for a woman. A husband who stays home at night or takes his wife with him, has no bad habits and accounts for every dime, sounds like a jewel. Read the next letter and be ashamed of yourself.

DEAR ANN LANDERS: My husband never was the neatest guy in town but these past few years he's become so careless about his personal habits that I can't take it much longer.

Weeks go by and he doesn't take a bath of a shower. I have to hide his socks and underwear at night so he'll put on fresh things in the morning. If I throw his soiled clothes in the bathroom hamper he'll fish them out and put them on again, so I have to take them to the basement. At times he is so offensive the children have mentioned it to me.

Please tell me what to do, Ann. He's fine in all other ways—gentle, kind, good to the children and to me, and he has an excellent mind. Why is he so lazy? — UN-SIGNED

DEAR UN-SIGNED: Your husband is more than lazy—he's sick. His "excellent mind" has a few blind spots. Part of personal hygiene is consideration for others. Tell him to go to a doctor and get himself straightened around. Cleanliness is still next to godliness.

DEAR ANN LANDERS: My boy friend and I have been arguing about something for a long time. We've consulted etiquette books and have found nothing to settle the question.

Who should go up the stairs first—the man or the woman? And who should go down first?

He says the woman should go first, always. Is he right?

— STAIRCASE SADIE

DEAR STAIRCASE: He's only half right. The woman should go UP the stairs first, but the gentleman should lead the way down the stairs.

## Alley Paving Bids Sought

Proposals for paving nine alleys will be received by the Mayor and Council until 10 a. m. Tuesday, September 6 when they will be opened and read.

Council's regular session will be held on Tuesday that week because of the Labor Day holiday. Plans and specifications will be available at the office of the city engineer. Work includes placing two-inch asphaltic concrete wearing course on subgrade prepared by city forces. Individual bids must be made on each alley and the city reserves the right to reject all or accept any one which it judges in the best interests, according to Street Commissioner John J. Long.

Each bid must be accompanied by a \$500 certified check and clearly marked "Proposal for Paving Nine (9) Alleys."

## Local Family Hurt In Crash Near Frederick

Four members of a Cumberland family were injured, and two of them hospitalized, as a result of a highway accident Sunday night on U. S. Route 40 near Frederick.

Injured were John J. Kenney, 38; his wife, Mrs. Margaret Lee Kenney, 37; a son, Michael A. Kenney, 10, and his mother, Mrs. Mary J. Kenney, 68, all of 602 Greene Street.

Kenney and his mother are patients at Frederick County Hospital, Frederick, where attaches report each in "satisfactory" condition.

Kenney, who was riding in the right front seat of the car which was being operated by his wife, suffered a dislocated right hip and a laceration of the forehead. His mother, who was a passenger in the rear seat, sustained a fracture of the right shin bone and a laceration of the forehead.

Kenney's wife and son were treated at the Frederick hospital for minor injuries. She suffered a laceration over the right eye and her son a laceration inside his mouth.

The accident was investigated by State Trooper R. E. Alderton, a Cumberlander who is stationed at the Frederick barracks.

According to Trooper Alderton, Mrs. Margaret Kenney was traveling west on the highway when she apparently fell asleep. The car swerved off the roadway and crashed into a large tree along the road.

The accident occurred at about 8 p.m. Sunday about three and a half miles west of Frederick. Trooper Alderton said Mrs. Kenney was traveling in a line of traffic at the time.

The West Virginia Crime Commission is expected to have a report today or Wednesday on its activities since its creation by the 1960 Legislature.

Another state commission, Industrial & Publicity, has received an unusual request for help from a recent visitor to the Mountain State.

A Salt Lake City woman has asked for help in locating a pair of her shoes, explaining she left them in a tourist home last July 26 while visiting the Charleston area.

The commission has called the various tourist homes and motels around the area—but so far, there has been no sign of the missing shoes.

Another busy schedule is on tap for Gov. Underwood this week, including a visit today to the West Virginia Farm Bureau convention at Jackson's Mill.

On Thursday, Underwood will take part in the Governor's Conference on Aging at Morris Harvey College in Charleston.

The next day, Friday, he is to attend the West Virginia Chamber of Commerce silver anniversary convention at White Sulphur Springs. He'll remain there overnight to speak the next day at the West Virginia Bar Association convention, to be held concurrently at the Greenbrier hotel.

Underwood closes out the week's schedule with an appearance Saturday at the Roane County Homecoming at Spencer.

## Suit Filed Against RR

An Akron, Ohio, woman, passenger in a car operated by a Westernport motor, has filed suit against the Baltimore and Ohio Railroad for \$50,000 damages as a result of injuries allegedly sustained when the auto was struck by a locomotive at a local crossing.

The action was docketed in U. S. District Court for Maryland in Baltimore by Edward J. Ryan, local attorney, for Mrs. Velma Burke.

The papers in the case declare that Mrs. Burke was riding in a car on September 16, 1958, driven by Mrs. Avelen Hott of Westernport.

They were headed eastward on Henderson Avenue following a car operated by Mrs. Burke's husband, William L. Burke, Akron, in which Mrs. Hott's husband, Elmer Hott, was a passenger.

The bill of particulars states that Mrs. Hott stopped at the Bedford Street crossing, but was signaled by the crossing watchman to proceed across it.

As she was doing so, a B&O engine struck the Hott car, injuring Mrs. Burke.

NEW YORK (UPI)—The first original writing for TV by Nobel Prize author William Faulkner will turn up during the new TV season on "G.E. Theater" on CBS.

It is a story called "The Graduation Dress." The program, in its seventh season, is going in for big-name authors when possible. In addition to Faulkner, others who will supply material are Budd Schulberg with two plays, Jessamyn West and William Inge.

The "Du Pont Show of the Month" on CBS will do seven 90-minute dramas during 1960-61. The first will be on Sept. 30, with one each month thereafter through April, excepting December.

## Lonaconing City Band To Parade On Labor Day

**INSTRUCTOR** — Airman 3/C William E. Harman, son of Mr. and Mrs. Earl Harman, 206 South Water Street, Keyser, has completed basic training and general instructors school at Lackland Air Force Base, San Antonio, Texas, where he is now an instructor. He is a graduate of Keyser High School.

LONACONING — Lonaconing City Band members are given special notice to plan for the Labor Day parade at Gaithersburg on Monday, September 5.

A chartered bus will leave from in front of the gas office, Main Street, at 7 a. m. so the band group will reach Gaithersburg by noon to be assigned in the line of march. The parade time is approximately 2 p. m., as part of a mammoth Labor Day celebration.

This is the first trip for the re-activated City Band to compete with a large number of other bands for high prizes offered at Gaithersburg.

All band uniforms are to be cleaned this week in preparation for the event. The band will attend the Methodist Church bazaar today at 7 p. m., not in uniform. They will also take part in the American Legion, Piedmont, W. Va. celebration on Wednesday evening and will play a concert Thursday evening at the "Kiddies Carnival" at the VFW grounds.

The officers and directors of the band have planned for the Gaithersburg trip as a climax of the reorganization and successful summer season.

## GOP Women Reorganize Frostburg Unit

FROSTBURG—Sixty women attended the recent re-organizational meeting of the Frostburg Women's Republican Club in the Legion Home. Mrs. J. Glenn Beall greeted the group and introduced Mrs. Noel Speir Cook, temporary chairman, who is a former state treasurer of the Maryland Federation of Republican Women.

Miss Katherine Close, first president of the organization, was elected to head the unit for the third time. Other officers are Mrs. Albert C. Cook, first vice president; Miss Esther Carter, second vice president; Miss Ruth Shaw, treasurer; Mrs. Allan Hager, recording secretary, and Mrs. Arch Davis, corresponding secretary.

Mrs. Arthur Verner, president of the Cumberland Women's Republican Club, spoke.

Committees will be appointed before the next meeting September 21 at the Legion Home.

## 22 Complete Swim Course

MT. SAVAGE—Twenty-two local youths this summer completed beginner, intermediate and swimmer courses taught at the Frostburg swimming pool by John Baer under auspices of the Sodality of St. Patrick's Church here.

The courses were offered by the Allegany Chapter of the Red Cross.

Those who completed the beginner's course are Barbara Reagan, Joseph Beal, Charles Mulligan, Michael McDermott, Thomas Kilduff, Paulette Carter, Cathy Logsdon.

Mary Joe Campbell, Patty Kilduff, Edward Barth, Louise Gracie, Kenneth Williams, Lynn Carter, Gary Bowers, James Robertson, Patrick Logsdon and Ann Campbell.

## Deep Creek Lake Regatta Attracts Largest Crowds In History Of Garrett Co.

OAKLAND — The largest crowd in the memory of Garrett County jammed all roads leading to Deep Creek Lake to see the boat regatta and water show there Sunday.

Fifty-seven decorated floats were in the boat parade that started at McHenry and traveled to Deep Creek Sta. Park.

The actual number of boats participating was not counted, but observers said there were several hundred in the line. They were six abreast during the parade.

Cpl. Samuel Conrad, state policeman stationed at Oakland, said cars were parked on each side of Route 219 clear from McHenry to a point south of the lake.

**Bumper To Bumper**  
For one hour after the boat parade started at 1:30 p. m. cars were bumper to bumper on the highway, he added.

All parking space in Deep Creek State Park was taken. The ramp for the water ski show was located just off the swimming area at the park, and that inlet was the scene of the activities.

Robert Barron, Johnstown, thrilled the crowd with a take-off with a 14-foot kite. He also did shoe sking and several jumps from the ramp.

Sonny Fortney, of Luke, did exhibitions of barefoot skiing, and a large number of other skiers who donated their time, combined efforts to put on what was termed a very successful show by the sponsors, the Deep Creek Lake Promotional Council.

**Used Song Themes**  
In the boat regatta, floats were entered using as their themes the titles of songs.

Ward Ashby, park superintendent, said 683 cars were checked in at the park alone. This was capacity, he added.

First place went to Pierson Glover, Belle Vernon, Pa., for his inboard motor boat decorated to depict the song, "Sayonara."

Second place went to Mr. and Mrs. Frank Hoag Jr., West Elizabeth, Pa., who were celebrating their 25th wedding anniversary yesterday and who had their inboard decorated with a large birthday cake. The theme was "Anniversary Waltz."

Mrs. Ward Ashby, wife of the superintendent of the state park, took third prize for her inboard having the title of "Going to Wash That Man Right Out of My Hair."

C. E. McLelland, RD 3, Washington, Pa., was fourth with his 19-foot inboard with the theme of "Alice Blue Gown."

**One Was Log Cabin**  
Fifth prize went to John Marple, Oakland, with three boats with the theme "Glow Worm."

A large-type cruiser owned by H. C. Humphries of Beckman's Peninsula, was made into a log cabin to go along with the song, "A Hunting We Will Go."

Judges for the floats were Earl Poorbaugh, Baltimore, special events official for the State Economic Development Commission; Mrs. Gladys Vannucci, Point View Inn; Mrs. Mavaddi Dodara, Oakland, of the Oakland-Deep Creek Lake Chamber of Commerce, and

**Chicago Grains**

CHICAGO (UPI)—Soybeans and land futures led the grain market lower Monday on the Board of Trade.

Liquidation and selling based on good crop weather depressed feed grain prices. Most land contracts, affected by weaker hog and oil prices, felt to new lows for the season.

At the final bell, wheat was off 1/4 to 3/4; corn off 1/4 to 3/4, oats off 1/4 to 3/4. Rye unchanged to 1/4. Soybeans of the mix, 10 to 15, and drummed land off 25 to 30 points.

Wheat futures added small fractions on reports of pending export sales and slow country selling. Commercial and local interests bought, while commission houses operated on both sides of the market. Rye eased with wheat.

Traders speculated about possible tenders against September contracts. Wednesday is first delivery notice day.

Corn met commercial and local selling. December was sold against purchases of March at 4 cents difference. There was a reduced demand for December at 8 1/2.

Oats were pressed by hedging and liquidation. Most trade consisted of change from September to December positions.

Soybeans were quiet. Prices firmed early, but weakness prevailed when scattered selling and liquidation appeared. Reports said soybeans are turning yellow in Missouri and southern Illinois. Meats and oil were also lower.

The Commodity Credit Corp. sold 1-025,000 bushels of beans Friday.

No export sales were reported.

Outside markets were mostly steady.

Board of trade statisticians estimate the U. S. viable supply of wheat this year increased 586,000 bushels to 491,700,000. Corn increased 34,000 to 49,000,000 to 23,048,000; rye increased 633,000 to 7,994,000; barley increased 1,682,000 to 24,107,000; and soybeans decreased 760,000, leaving 8,917,000 bushels.

## Plan To Move Street Lights Is Turned Down

Downtown System Set By November 15

City officials yesterday morning turned down a proposal for moving street lights, which are to be replaced in the downtown area, to Piedmont Avenue.

The proposal was made by C. Eric Roeder, 808 Trost Avenue, at a meeting with G. Ray Light, commissioner of water and electric light, Mayor J. Edwin Keech and City Attorney William R. Carscaden.

Mr. Roeder offered to install the lights from Baltimore Street and portions of North Mechanic Street and North Centre Street on Piedmont Avenue if the city would move them to the North End.

Mr. Light declined to accept the offer and cited three major reasons:

Present light standards and fixtures are made for underground cable, which is not available on Piedmont Avenue.

Virtually all transformers in downtown street lights are bad and would be costly to replace. The move would put the city back into the lighting business, which it doesn't want, since it has found it is cheaper to lease lighting service from Potomac Edison.

Mr. Light reported yesterday that Garland L. Johnston, district manager, has informed him that all equipment for the downtown mercury vapor lights has been ordered.

The lights will be up by November 15. Mr. Light said he was told, unless unforeseen difficulties develop.

City officials would like to see the lights up by that date, so the installation will not interfere with plans of the Retail Merchants Association for its Christmas street lighting program.

The Yale lights are scheduled to be turned on the night of November 25, official opening of the Christmas shopping season here.

## Council Tables Armed Forces Policy Order

The Mayor and Council yesterday morning tabled for one week an Armed Forces training policy order.

The proposal points out that the policy shall apply to all employees of the City of Cumberland who are members of the National Guard and Reserve components of the Armed Forces of the United States, with respect to leaves of absence required for active duty training, for a period not to exceed two weeks in any year. It provides:

1. If any employee during the probationary period is granted a military leave of absence, such employee shall not receive any compensation from the City of Cumberland and such employee's probationary period shall be extended for a period equal to the military leave of absence.

2. All other employees of the City of Cumberland, upon approval of the department head, shall be granted, upon request of their military commander, a leave of absence not to exceed a period of two weeks in any one year; upon the granting of said military leave of absence, the employee shall be paid the difference, if any, between his gross military pay and his city compensation, providing the military pay is less than the city compensation.

3. Employees having annual reserve military training requirements shall not be discriminated against insofar as city employment is concerned by reason of such training commitments.

## Final Library Report Presented To City Officials

The 36th and final report of the Cumberland Free Public Library was presented to the Mayor and Council yesterday morning.

The report for operations in the year ending June 30 was presented by Miss Mary G. Walsh, librarian.

She said 1,774 books were added to the library last year, bringing total volumes to 64,000.

A total of 300,713 books were circulated to 13,291 registered borrowers during the year for an average circulation of 989 books a day.

The library was incorporated recently into the Allegany County Library System.

City support of the facility is being phased out over a three-year period.

## Hotel Demolition Progresses

Demolition of the old Olympia Hotel, a Baltimore Street landmark for many years, is in the final stages. The Humbertson Salvage Company began tearing down the structure early in July and yesterday broke through to the ground on the North

Mechanic Street side of the group of buildings. The site on which the buildings stand will be used for off-street parking facilities. Earlier this year, buildings at nearby 6-10 Baltimore Street were razed and the area turned into a parking lot.

## 16,910 Eligible For Voting Unregistered

Demo Newsletter Cites Figures

The latest Maryland Democratic Newsletter just mailed out from Baltimore carries a table which states that Allegany County has 16,910 unregistered persons who are eligible by reason of age to vote in the November 8 general election.

The newsletter bases its figures on the 1960 census totals on the percentage of population in each county and Baltimore city of voting age.

It states that 63 per cent of the 83,831 residents of Allegany County counted in the 1960 census are of voting age. Potentially then, on that basis, 52,813 could vote if they were registered. The table then shows that 16,910 or 32 per cent of those eligible by reason of age have not registered in this county. There are 35,903 registered in this county.

Allegany County figures are not unique, according to the political publication. They show that 1,743,533 of Maryland's 3,072,969 inhabitants counted in the most recent census are of voting age but 571,696 are not even registered.

Allegany's percentage of unregistered voters, at 32, is 11th among the 23 counties. This same publication states that 25 per cent of the potential voters in nearby Garrett County are not registered. Garrett County has a potential registration of 11,949 or 59 per cent of the population of 20,253. Yet only 8,943 were registered at last report.

Somerset County on the Eastern Shore has the best record for percentage registered. There only four per cent of the 12,594 potential are not registered. The highest percentage is in Harford County, where the newsletter says, 51 per cent are not registered.

Those old enough to register who have not done so have until Monday, September 26, to assure themselves a vote by signing up with the County Board of Election Supervisors. Registrars are on duty in the Court House from 9 a.m. until noon and from 1 until 4 p.m. Monday through Friday. Beginning September 6 most communities in the county will be visited by substitute registrars.

## Whisky Hearing Scheduled Today

Hermas Garlitz, operator of the Avillon Acres in Garrett County, is scheduled to be given a hearing at 10 a.m. today before Magistrate Robert M. Maroney in Oakland on a charge of illegal possession of whisky on the premises.

Garlitz, who was nabbed on the night of August 6, posted bond of \$500 when he appeared before the magistrate.

State and county authorities arrested the man after a raid at the premises located about two miles south of U.S. Route 40.

They found a small quantity of liquor and quite a few teen agers in the tavern at the time of the raid. Garlitz has a beer license.

## Pre-Harvest Drop Control On Apples Is Being Urged

Joseph M. Steger, Allegany County farm agent, said yesterday that now is the time to plan pre-harvest drop control on Delicious, Grimes, Jonathan and other fall apple varieties.

He said that 2,4,5-Tp remains the best choice for materials which can be applied either diluted in pressure rigs or air-blast machines or in concentrate form in the latter.

In the nine years that 2,4,5-Tp has been used in pressure rigs and air-blast machines, no injury of any kind has been observed as a result of its use.

Air applications of 2,4,5-Tp have been made for the last several years, and in 1959 some injury was associated with this method of application.

## Hearing For Pickets Due September 9

Seven Released Under Bond

Seven pickets, who were scheduled to be given a hearing today in connection with a disturbance August 25 at the strikebound Sterling Processing Corporation in Oakland, will appear before Trial Magistrate Robert M. Maroney in Oakland at 10 a.m. September 9.

Magistrate Maroney said last night the pickets, including two women, are charged with violation of Article 66½, Section 9 of the Motor Vehicle Law which makes it unlawful to throw stones or missiles on a highway.

The disturbance occurred when officials of the company arrived to remove equipment from the Oakland plant which has been strikebound since August 1. (The strike was settled last Saturday and the plant is expected to go into operation today.)

Mrs. Elizabeth Ely, Mt. Lake Park, was arrested by deputy sheriffs for allegedly throwing stones at trucks being driven by the officials include Richard Sharpless, Gladys Hauser, Melvin Sines, James Holler, Charles Smith and Theodore Wakefield.

All of the pickets were released on bond pending the hearing on September 9 in Magistrate Maroney's office.

## Many Visitors Enjoy Facilities Of State Park

In order to escape the hot and humid weather Sunday, many residents traveled to the recreation areas of nearby Garrett County.

Probably the most popular area was the Deep Creek State Park which was a vantage spot for the boat program and ski show which was viewed by about 6,000 persons during the afternoon.

Ward Ashby, park superintendent, said there were 671 paid admissions to the recreation area where 56 tent sites were filled by more than 400 persons.

About 150 boats were out on the lake and at least 100 which had been pulled onto the beach. The parking lots are set up for 500 cars and the overflow was handled nicely, he added.

## Mountain Playhouse Offers "Auntie Mame"

"Auntie Mame," presented as a book, a play and a prize-winning movie, is being offered by the Mountain Playhouse at Jennerstown, Pa., this week and next.

The first performance was last night and the final one is scheduled September 10.

## Radio Bids Asked

The City of Cumberland is advertising for bids, to be opened September 12 at 10 a.m., for the rental of two-way radio equipment to be used on city vehicles.

## City Building Permits Are At \$2,297,510 Mark

August Projects Are Valued At \$192,750

Building permits valued at \$192,750 were issued this month by the City of Cumberland to push the total for the first eight months to \$2,297,510.

This is far more than the total 1959 building program, which was estimated by builders at \$1,610,062, but is not expected to reach 1958's \$2,740,727.

During the period from July 26 through August 26, the City Engineering Office issued 16 permits. Eleven were for new construction valued at \$189,000 and five were for additions and improvements estimated to cost \$3,750.

The permits included two residences valued at \$15,000, three residences with attached garages estimated to cost a total of \$30,000 and three garages to cost a total of \$200.

Also included is a permit for a branch bank at \$20,000, a \$32,000 warehouse, a \$90,000 loading dock, three additions to residences valued at \$550, a permit for repairs totaling \$2,000 to a double house, and a \$1,200 addition to a business.

## Civic Affairs Unit Is Named

William G. Barger and S. Louis Curl have been appointed co-chairmen of the Civic Affairs Committee of the Cumberland Chamber of Commerce.

Other members of the committee, according to C. M. Sanner, president, are Francis A. Kenney, Charles S. Steiner, Buford Saville and Casper R. Taylor Jr.

The purpose of the committee, Mr. Sanner said, is to plan and promote activities which will install community spirit and pride, promote cultural activities and develop, promote proper recreation facilities and help develop greater interest and participation in neighborhood improvement programs.

The unit has also asked to analyze and recommend improvements in city and county governments and recognize outstanding civic service by officials and volunteers in fields of civic service.

## Home Demolition Bids Are Asked

The City of Cumberland is advertising for bids to be opened September 6 at 10 a.m. for the removal of dwellings at 700-702 North Centre Street and 703-705 North Mechanic Street.

The buildings are to be razed to make space for the widening of Franklin Street and were purchased by the city some weeks ago for about \$13,000.

Shortly after the improvements were acquired, city officials asked bids for the purchase and demolition of the buildings. There were no bidders under terms of the proposal.

## Breeders' Unit Meets September 15

The annual meeting of the Artificial Breeders' Cooperative of Allegany County will be held on September 15. Joseph M. Steger, county farm agent, announces.

He said the meeting is usually held in his office. This year part of the program will be held at the farm of John T. Mason, in the Cresapton area, where members will observe some artificially-bred calves.

The rest of the program will be held at the dairy farm of Harry S. Barton, where a social hour will be held. Harry Miller, secretary-treasurer of the county co-op will give his annual report.

Also expected at the meeting will be Gene Weaver, field man for the co-op.

Mr. Steger said that in 1959 from 1200 to 1300 calves were artificially-bred in the county.

## Searchers Seek Plane At Rainelle

Deaf Mute Gives Them Description

RAINELLE, W. Va. (UP) — West Virginia Civil Air Patrol ground units searched a heavily wooded area near here Monday for a missing private passenger plane after a deaf mute graphically described how he saw a plane and four bodies in the area.

Col. Robert Gobel said the deaf mute drew pictures of a plane with a broken wing with three bodies beside it. Another picture showed a thermos jug.

Gobel said the man even held his nose to indicate the bodies were giving off a smell. Gobel said the man also pictured one of the bodies with a mustache.

The plane was piloted by Henry Griffing, Oklahoma City businessman and aboard were his wife, son and daughter.

"Griffing didn't have a mustache but his son was known to wear one at times," Gobel said. Gobel said although the mute gave a pretty graphic description of a crash scene he apparently couldn't lead searchers to the crash.

"He would take searchers to a certain point then stop and act like he didn't know where to go or what to do," Gobel said. "Yet when he got back to Rainelle he would again draw pictures of the crash scene."

Gobel said CAP mobile units would probably continue to search the area Tuesday.

Griffing was piloting a Cessna-182 en route from New Jersey to Oklahoma City when it disappeared last Aug. 16.

## Avoidance Effort Fails, Man Is Jailed

A 31-year-old local man who tried to avoid being served with a warrant by City Police last week was committed to the County Jail yesterday in default of fines imposed on three motor vehicle violations.

The man, Charles P. Sponaugle, of 207 Maryland Avenue, was given a hearing yesterday in Trial Magistrate Court by Magistrate Paul W. Barnett, who ordered the local man jailed for 20 days.

Sponaugle was found guilty of failing to obey a crossing watchman's signal to stop, reckless driving and failing to obey a command of an officer. He was fined a total of \$50 on the three counts.

Police said Sponaugle attempted to evade them when they tried to serve him with a warrant from Juvenile Court.

Sponaugle was arrested last Monday by Officers Clarence Valentine and Kenneth Henry after a chase through the city.

## Term Suspended In Chair Theft

Mervin Kyle, of 890 Sperry Terrace, who was arrested over the weekend by City Police in the theft of two chairs from the porch of St. Patrick's rectory, yesterday was given a six-months suspended sentence.

Kyle was tried yesterday in Trial Magistrate Court by Magistrate F. Allan Weatherholt, who suspended the jail term and placed Kyle on probation for one year.

Police nabbed Kyle minutes after the theft when a young boy spotted Kyle walking with the chairs. Kyle later admitted taking another chair from the rectory porch August 20.

## Man Is Held

A man booked as Lloyd Bennett, 313 Pennsylvania Avenue, was arrested yesterday morning by city police at the request of county authorities. He is being held in the county jail on a warrant charging destruction of property and disturbance of the peace.

## Engineers Added To Staff Of Allegany Ballistics

Two new members of the staff at Allegany Ballistics Laboratory at Pinto are Wayman L. Calhoun, 776 Fayette Street, senior research engineer, and H. David Harmoning, Eckhart, mechanical engineer of the research department.

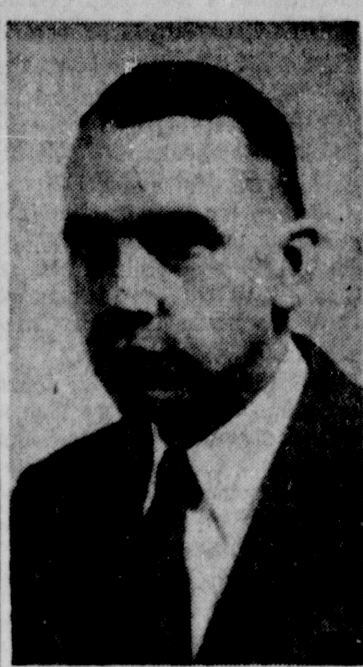

Mr. Calhoun a native of Little Rock, Ark., attended high school there and after graduation received further education at Little Rock Junior College.

He was graduated from the University of Texas, where he received a BS degree in chemical engineering in 1947. Mr. Calhoun received his MS degree in chemical engineering practice in 1949 and took a night course in business law at Indiana State Teachers College.

Much of prior employment was at Reynolds Metals Company. He and his family live at 776 Fayette Street.

Mr. Harmoning is a native of Philadelphia. He attended high school at Moorestown, N. J., and was graduated from Lehigh University with a BS degree in mechanical engineering.

Summer employment included work with Radio Corporation of America.

## State Board Of Resources Backs New Bill

Disagrees On Coordination

ANNAPOLIS (AP)—The Board of Natural Resources approved proposed legislation Monday which would allow it to choose its own chairman, but disagreed over how far to go in trying to coordinate efforts of various member conservation departments.

The agency is planning to submit a reorganization bill to the 1960 session of the Maryland Legislature and took its first formal steps toward drafting such legislation.

The head of the board is presently designated by law as the director of the Tidewater Fisheries Department, one of six member agencies of the board.

Dr. H. C. Byrd, TFC chairman who as acting director of his department also serves as chairman of the resources board, agreed with other members that the situation should be changed.

Some board members have charged that this titular domination by one department has been a major "stumbling block" to the functioning of the board since its creation in 1941.

"If this agency is not going to actually control the work of the Department of Tidewater Fisheries, I see no point in its chairman being head of the board," Byrd said. "In fact, I feel that to designate a chairman of any one department by law is wrong as a matter of principle."

With the chairman thus volunteering to shed one of his two hats, the board unanimously adopted a proposed change. It agreed that the chairman should be chosen from among its entire membership — including department heads as well as appointed members — and serve for a one-year term without any extra compensation.

The biggest hassle came over the next section of the bill, which dealt with the board's role in relation to member departments.

By a 6-4 vote the board approved new language which read:

"The Board of Natural Resources is hereby authorized and directed to conduct annual studies and appraisals of the operations, activities and the accomplishments of each member department of the board and to recommend to the member departments, to the governor and to the Legislature coordinated plans, procedures and policies for the preservation, development and use of all the natural resources of the state."

Voting against the proposal, on grounds that it infringed on powers of presently appointed commissions, were Byrd, Dr. Joseph T. Singewald, director of the Department of Geology, Mines, Minerals and Water Resources; Ernest K. Vaughn, director of the Department of Game and Inland Fish; and board member Lester N. Townner of Baltimore.

Board member David Hume and Paul McKee, director of the Water Pollution Control Commission, led the move for adoption of the revised statement of board duties. They contended that it merely strengthened the board's role as a coordinating agency and did not interfere with work of the various conservation commissions.

## Natural Gas Company Seeks Federal Authority

WASHINGTON (AP) — The Manufacturers Light and Heat Co., Pittsburgh, asked the Power Commission Monday for authority to transfer all its retail natural gas activities in Pennsylvania to a new affiliate, Columbia Gas of Pennsylvania Inc., also of Pittsburgh.

The proposed transfer is another step in a realignment of properties of the Columbia Gas System which has been under way since 1955. Columbia's purpose is to have each of its operating subsidiaries subject to the jurisdiction of only one regulatory agency.

## Mercury Hits 96 Degrees, Summer's High

If you thought yesterday was the hottest day of the summer you were right, because the mercury zoomed to the 96-degree mark.

The previous high for the summer, 93 degrees which was set Sunday, was short lived as the city continued to bake in 90-degree weather.

Little relief is expected today as the Weather Bureau again calls for sunny, warm and humid weather.

At 6 p.m. the temperature still was 87 degrees in Constitution Park, but the overnight low was expected to be in the 60's and provide some relief for sleeping.

## Firemen Plan Short Course

Member companies of the Allegany-Garrett Counties Volunteer Firemen's Association are expected to send representatives to the 27th annual short course for firemen September 6-9 at College Park.

The course is sponsored by the Fire Service Extension Department of the University of Maryland. Cromwell C. Zembower, LaVale, is a member of the 1959-60 training committee of the state association.

Among the lecturers will be Fire Chief Harry Devlin of the Midland volunteers.

Following registration at 8 a.m. the opening day, invocation will be given by Rev. James W. Minter, chaplain of the state association.

Dean Frederick T. Mavis, College of Engineering of the University, will extend a welcome to the firemen and a response will be given by Jack V. Reckner, president of the state association.

Officer training, basic general firemanship and advanced general firemanship will be stressed at the four-day course.

## Celane Mexican To Double Output

NEW YORK (AP) — Celanese Corp. of America said Monday an affiliate, Celanese Mexicana, S. A., will double its output of filament nylon yarn by expanding its plant in Ocotlan, Mexico.

The new facilities, scheduled for completion late in 1961, will add 1,000 tons a year to the company's output. Celanese Mexicana has also announced plans to increase production of nylon tire cord.

## Legion Meeting Today

Knobley Mountain Post 136, American Legion, will hold an executive board meeting today at 8 p.m. in the post home in Ridgely, according to K. Albert Wolfe, commander, who urges all officers to attend.

## Births

Mr. and Mrs. Jay B. Beneman, 600 Wyndmoor Avenue, Philadelphia, Pa., announce the birth of a daughter yesterday in Philadelphia Lying-In Hospital there. The paternal grandparents are Mr. and Mrs. Harry G. Beneman, 802 Fayette Street.

Memorial Hospital. Mr. and Mrs. Charles L. Westfall, 1103 Lexington Avenue, a son yesterday.

Mr. and Mrs. Joseph Harkum, Oldtown, a son yesterday.

Mr. and Mrs. Paul R. Wagoner, Short Gap, a son yesterday.

Mr. and Mrs. Harry W. Yoe Jr., Romney, W. Va., a son yesterday.

Mr. and Mrs. Joseph A. Becker, 129 Oak Street, a son last night.

Mr. and Mrs. Leonard L. Miller, RFD 4, city, a son last night.

## City Vacation Rules Will Go Into Charter

Resolution Passed By Mayor, Council

The Mayor and Council took action yesterday to place current vacation rules for city workers into the charter.

The change was instituted with the passage of Charter Amendment Resolution No. 16.

Provisions will become part of the city charter on October 18 unless a referendum petition is presented by October 8.

It provides that city workers shall get five working days of vacation after one year of continuous service, 10 working days after two years and 15 working days after three years of service.

## Makes No Changes

It also provides that Police and Fire Department workers shall get seven working days off each year in lieu of paid holidays granted to other workers.

City officials also passed Ordinance 2189 yesterday. It repeals Ordinance 2997, which provided the same vacation benefits as the proposed charter amendment.

In routine action yesterday, the Mayor and Council authorized City Auditor Arthur B. Gibson to issue pay checks Thursday for the second period of August.

Accepted was the
